CITY SHOULD CONTEST INTERURBAN EXTENSION

One year ago the Edmonton Interurban Railway people announced that in the form in which it was granted the charter given them by the Alberta legislature was not worth the paper it was written on, and that the company could not afford under this charter to exercise the franchise granted it by the city of Edmonton.

The public were given to understand that the reason the company, could not afford to build was because the legislature amended certain clauses which gave the company a monopoly of the electric business in St. Albert at an exorbitant figure.

As a matter of fact, the real reason why the company did not care to build was not the announced reason at all. The real reason was because the legislature so amended the agreement accepted by the city of Edmonton as to make it impossible for the company to build lines outside the city limits and continue to own them after the limits had been extended so as to include these lines.

Had the agreement as accepted by the city of Edmonton gone through the legislature, the city would have found itself in the same trap that the city of Vancouver now finds itself in with the B. C. Electric, and that the city of Toronto find itself in with the city of Toronto, the final outcome of which would almost certainly have been the loss to the city of its entire street railway system.

The Interurban's scheme was adroitly laid, but the legislature saw through it and saved the city.

Now the Interurban comes back with the announcement that it desires an extension of time.

If the company has no use for the charter as it stands, it could have no reason for asking for an extension of time. If it does not expect to be able to eventually put through its original designs on the city, the extension of time, according to its own declaration, would be valueless.

The business of the city in this matter is to see that the Interurban gets nothing.

A GLIMPSE INTO EDMONTON'S FUTURE

Freight experts in United States estimate that there are at the present time one million tons of fruit carried from California every year at an average freight rate of \$25.76 a ton. With the construction of the Panama canal, so these experts estimate, refrigerator steamers will carry this fruit from Los Angeles to New York for \$7 per ton, leaving a margin sufficient to pay for distribution from the Atlantic seaboard back as far as Chicago and making practically all the eastern cities tributary to New York, Boston and Philadelphia, so far as fruit shipments are concerned.

From this may be gathered some idea of the effect which the traffic men expect from the Panama canal. The day of the completion of the canal will mark the close of the transcontinental rail business except on such high-class products as will pay the extra freight in consideration of the time saved. When that time comes the whole of the railway business on this continent will have to be readjusted, making the principal business of the railways that of hauling from the nearest central point to either coast, instead of, as it is now, that of hauling from coast to coast. Edmonton will be the nearest central point for all freight originating within or going to the territory for three hundred miles along the eastern slope of the Rocky Mountains.

Minneapolis and St. Paul, with less than half the territory which will be tributary to Edmonton and not one-quarter the resources, have a population of close to half a million people.

SELDOM EQUALLED AND NEVER EXCELLED

The annual statement of the Edmonton exhibition, officially known as the Great Western International Stock Show is a credit to the management and to the city. The Edmonton fair has gone through many vicissitudes and has had the heart-breaking experience of showing a debit balance every year for many a long day. But although this was distressing at the time, it practically amounted to a capital investment for the establishment of a reputation. The reputation is now established, the country has become more settled, allowing a larger attendance, and the possibilities of making the fair pay its way every year are within plain sight.

An exhibition is one of those things which takes years to establish. The best attractions in the world might be put on, but without the necessary foundation in public favor all the money available might be expended in exhibits and attractions without guaranteeing success. The Edmonton exhibition now has that foundation in public favor. It is one of the fixtures of the year in Western Canada. Its plan is the finest in the Dominion. It has always treated the public fairly. Its events and attractions have been as advertised. Its patrons know before they start for the fair that they are going to get everything promised. In short, it has a franchise in the confidence of the public.

That it should, while yet in the act of establishing this confidence, clear expenses and show a little to the good is a record which has probably never been equalled and certainly was never excelled in the Dominion of Canada.

The weather was fine, the air was clear, the tide was regular and the wind was calm when the captain of the Niobe went to sleep. When he awoke the ship was on the rocks and the captain was not to blame. This verdict is easily justified on the grounds that the captain did not put the rocks there.

A. Wilcox Now Superintendent of G. T. P. Western Division, with Offices in This City—Growth of Traffic Reason for Dividing Work in West

As a result of the rapid growth in the volume of traffic on the G.T.P. lines running east and west of the city, Edmonton is to be made the divisional headquarters for the main lines and branches of the road in Alberta and a part of Saskatchewan, while Winnipeg will be the divisional point for the remainder of the lines west of Port Arthur. This is the substance of an announcement handed out at the head offices of the company at Winnipeg this morning. Hitherto all the business lines have been operated from Winnipeg, there being only one western division. By the new arrangement, a division will be divided into two parts known as the western division with headquarters in this city and the central division with headquarters at Winnipeg.

It was considered a wise move to appointments are announced, the principal being as follows: J. B. Cameron, present general superintendent, becomes assistant general manager with jurisdiction over all lines. A. Wilcox, assistant general superintendent, becomes general superintendent of the western division with headquarters at Edmonton. M. M. Murphy succeeds Mr. Wilcox as superintendent of the central division at Winnipeg. Warren as superintendent at Winnipeg.

COAL DEALERS TO HOLD A MEETING

THIS AFTERNOON WHEN PRICES ON BLACK DIAMOND WILL BE ALL ABSORBING TOPIC.

A meeting of all wholesale and retail coal dealers in the city is being held this afternoon at 4 o'clock in the office of George S. Montgomery, manager of the Alberta Coal company, for the purpose of discussing a more equitable adjustment between the price paid to the coal producers and that received from the general public by the retailers.

Mine workers in the Edmonton district are under the impression that the operators are reaping rich profits from the high prices of coal prevailing in the city at the present time. The fact of the matter is, however, according to George S. Montgomery, the manager of the Alberta Coal company, that the price of coal has soared, so far as the household is concerned, the price of coal at the mouth of the mine has been kept a low figure and all the profits of the high prices are going to the retailer. It is to adjust this condition of affairs that the meeting is being held.

COSMOPOLITAN AND DICKENS

Charles Dickens is still the "best seller." Publishers don't argue pro and con over his books—they just order a new cartload of paper, oil the presses, and let them speed on. And it has been forty years since, one morning when the yard was filled with screeching cranes and the breath of spray was heavy in the air, the great author followed little Nell. Now that the century of his birth (February 7, 1812) approaches, and everybody is thinking of Dickens. We have secured several articles which will tell you all about him that have hitherto been unknown. In the January Cosmopolitan, his son, Alfred Tennyson Dickens, will tell you some of his own personal recollections of the great novelist. Later, probably in February, Mary Angela Dickens, his granddaughter, will give an intimate view of Dickens, as he remembers him. In fact, in these and other articles on Dickens which will follow—fully illustrated of course—we shall aim to give you a more vivid picture than has yet been published of the human—human—side of the great master. Write to us in the "Dear Editor" column in your library. Subscriptions to Cosmopolitan will be accepted until December 5, at the special low rate of Canada of \$1.50. COMMITTEE VISITS EASTERN CITIES

CIVIC DELEGATION GATHERS A FEW NEW IDEAS AND WILL ADVISE COUNCIL.

Apart from the mission on which the delegation went to Ottawa, Edmonton officials while across the continent took advantage of the opportunity to travel extensively and saw many cities of the United States. At St. Paul, Chicago, Detroit, Buffalo, Albany, Boston, Springfield were the cities across the border visited. Winnipeg was necessarily touched on the way to Ottawa, likewise Toronto, and Windsor was likewise paid a visit.

Mayor Armstrong did not take the extensive journey as did Aldermen Melnick and Mould. He remained at Ottawa to seek interviews with cabinet ministers. He only took a side trip concerning St. Paul, Chicago and Detroit. Of course he visited Toronto, Winnipeg and Windsor.

At Toronto they are paying between the street car tracks with wooden blocks, pavement such as Edmonton has for a few years ago because it failed to provide efficient at such places. At the same city street railway ties had been laid upon the gravel and sand and the pavement put on top of it and between the ties when the street was paved. They are now tearing up the track and putting in a good foundation.

In numerous eastern cities they failed to provide lane and all freight has to be handled from the front. This is true with business streets of Toronto. Wherever narrow streets are found a poorer class of resident is found residing, and the property far below the market value of property in that locality than on wide streets. The mayor says he is satisfied that a narrow street makes a slum, nothing more.

Alderman Melnick declared that he would never stand for a wooden sidewalk at Chicago and other cities will find concrete sidewalks demanded for blocks and blocks beyond where there were wooden sidewalks.

He likewise believes that concrete base should be put under every street railway in cities where the street is not paved.

Mayor Armstrong is convinced that the greatest offense any street car conductor can perpetrate against the public is to mouth the name of a street.

He conducted a tour of the city and the name of the street loud enough and distinct enough for all in the car.

He could not be in a sanitarium and not on a street car," says the mayor. Very forcibly was this fact brought to his attention while travelling in eastern cities. He was carried past the street car which he wished to alight. He confesses to have been carried two blocks beyond his destination. The mayor is convinced that the little things are in

FILTERED WATER PROMISED AGAIN

COMMISSIONERS BUY SOME MORE FILTERS AND ARE ASSURED THE WATER WILL BE PURER.

Four Roberts filters and the missing parts of the eight Roberts filters now comprising the city filtration plant the sum of \$16,254.75 were purchased this morning by the board of city commissioners. This equipment is purchased with the agreement that the Roberts Filter company put up a good and sufficient fund for the city to purchase the plant that the plant will properly supply 4,000,000 gallons of filtered water every twenty-four hours. In return the company is guaranteeing the goods. And clear water is promised next spring, something that has been promised for years and never yet realized during turbulent water periods.

The new equipment consists of four new filters, steel tanks, with all requirements, together with regulators, new gauges and all equipments for the eight old filters.

NOT A REAL LAWYER BUT STIEN COLLECTED Interpreter Who Acted in Compensation Suit Did Not Wait for Judgment.

Representing himself as the authorized agent of Cornack and Mackie, solicitor for John Pietrus in the recent compensation suit against the Edmonton townworks for injuries received in a accident in the company's foundry, John M. Stien, who acted as interpreter in the case, is alleged to have collected \$25,000 from Pietrus, and promptly pocketed the money.

Stien is on trial today in the district court for obtaining money under false pretences. It is alleged that from September 27 to October 10, he visited Pietrus at intervals, and demanded various sums. The injured workman is almost entirely defenceless in a knowledge of English law, and knows nothing whatever of English law. Confiding in his fellow countrymen he handed the money out to Stien, thought the law was on his side.

The decision in the compensation case is still reserved, but Pietrus found the alleged emissary of the law firm on his trail continuously, it is claimed, asking for more money. Stien pleaded not guilty when placed on trial before Judge Taylor this morning. The case for the prosecution had not been completed when the court adjourned, probably to be given this afternoon.

FOUND GUILTY OF BEATING HORSE

High Martell was found guilty by Inspector Werstley of the R.N.W.M.P. today of cruelty to animals and fined \$50 and costs together with one month's imprisonment at Fort Saskatchewan. In default of payment of the fine, two months hard labor at Leithbridge.

The case was one of the most revolting cruelty. Several witnesses swore to having seen the horse being taken up half an hour after the fourth time of punishment. Constable Jackson found the horse and the blood stained clubs on the Namyat trail. He cut up the head and brought it to the barracks. In defence Martell swore he swore that the horse deliberately rushed its head against the side of the wagon. Martell has given notice of appeal.

REGULAR CHECK CASE.

Charged with receiving a cheque for \$5 drawn by J. A. G. Brown on the Merchants Bank, Namyat avenue branch, Steve Brown will be brought up for trial at the sittings of the superior court in February of 1912. His case had been set down by the crown prosecutor for trial in the district court this morning, but the accused, who had been released on bail, did not put in an appearance and his case was postponed. H. H. Robertson, stated that apparently Brown had not elected a speedy trial. The case had been in Mr. Jackson's hands and not positive information as to Brown's intentions could be ascertained. Mr. Robertson suggested that the accused had probably elected to be tried by jury.

Adam J. Palmer, who has been elected governor of Rhode Island for a fourth term, is a native of Canada. It is rumored in Illinois that Governor Duane will not be a candidate for re-election, but instead will try for the United States senate.

WORK OF FAIR DIRECTORS APPROVED BY ASSOCIATION

Satisfaction with Year's Results Characterizes Annual Meeting—New Officers Are Elected—President Campbell's Services to Be Recognized by Shareholders

Thoroughgoing satisfaction with the results of the year's working and a determination to make of the Dominion Fair of 1912 an even greater success than the Interprovincial Stock Show and Race meet of 1911 proved to be characterized the annual meeting of the shareholders of the Edmonton Exhibition Association, which was held in the board room, Second street, last afternoon. The reports of President Campbell and Manager Harrison were received with expressions of gratification. Successful as the big fair in August was known to have been, the substantial surplus revealed by the financial report was even greater than had been anticipated.

A feature of the meeting yesterday afternoon was the address by C. E. Lewis, superintendent of fairs and exhibitions, who spoke at length upon the livestock features of the fair and upon the problems of the stockman.

The election of officers resulted as follows:

President, A. B. Campbell; vice-president, Jas. McGeorge.
Agricultural directors, Geo. Long, C. H. Grierson, William Galloway, W. D. Carscadden, D. W. Warner, C. G. Robertson.
Race directors, D. R. Stewart, W. R. Wolf, P. O. Dwyer, J. W. Clark.
Auditor, G. L. Robinson.

A committee was appointed to arrange for some suitable recognition of the services which President Campbell has given to the association since he first took office. D. W. Warner, in putting a motion to the meeting that, with this matter, pointed out that Mr. Campbell's generosity given service of the U. P. A. was carried.

There had been of enormous advantage to the association, and while Mr. Campbell neither sought nor expected payment they might well show their appreciation of his work in some concrete way. Messrs. Connor, McGeorge and McCall were appointed a committee to arrange for the presentation. Henceforward shareholders in the association will be required to pay an annual fee of \$2 in addition to the \$5 which is paid by each shareholder on his admission. This provision is contained in the set of bylaws which were adopted for governance of the organization. Manager Harrison explained that the intention of the innovation is to insure that all members of the association shall be residents of the district. As it has been in the past, by a member of the association is a perpetual shareholder. In future if the \$2 fee is not paid on notice each year, the member who makes default will forfeit his share.

Parsons of the province do not take kindly to the suggestion that the stock and agricultural products of the Dominion and Provincial government farms should be allowed to compete with those of private individuals in the various Alberta fairs, and in their objection they were yesterday afternoon sustained by the annual meeting of the Edmonton Exhibition Association. The United Farmers of Alberta of the Edmonton district gave expression to their opinions in the matter in a letter which was read before the meeting, and R. H. Sheppard and J. McCall spoke in support of the view which appears to be held by farmers and ranchers going generally. A resolution endorsing the stand of the U. P. A. was carried.

U. S. BANKERS ARE AT NEW ORLEANS

(Special to The Capital.)

New Orleans, La., Nov. 21.—Several hundred bankers, representing all classes of financial institutions and every state in the Union, assembled in New Orleans today for the thirty-seventh annual convention of the American Bankers' Association. There seems to be more than usual interest in the convention this year, this being evidenced by the fact that the attendance is the largest in the history of the association's annual gatherings.

Currency reform will be the all-absorbing topic of discussion at the general sessions of the convention. It is expected the association will express its formal approval of the plan which, presumably, the National Monetary Commission will recommend to Congress at the expiration of the life of the commission next year. That every phase of the Abinch plan for monetary reform will be considered is evidenced by a list of subjects assigned the various speakers, as follows: Trade depression and panics; trade expansion and crop movements; the organization and control of the national reserve association; the relation of the national reserve association to the Government; relation of the State banks, savings banks and trust companies to the national reserve association; rediscounts and bank credits; bank acceptances; the creation of a discount market; the mobilization and control of the reserves of the country; keeping the national reserve association apart from partisan politics and special control; the needs of the farm and its benefits from the national reserve association; benefits from the national reserve association to the manufacturer and laborer; benefits of the national reserve association to the country as a whole; relation of the national reserve association to foreign trade and banks and the world's financial centre.

The prominent speakers at the convention will include Congressman Arsene P. Tulio, of Louisiana; Paul M. Warburg, of Kuhn, Loeb and Co., New York; George M. Reynolds, president of the Continental and Commercial National Bank of Chicago; Benjamin Strong, Jr., vice president of the Bankers' Trust Company of New York; Joseph C. Brown, president of the Citizens National Bank of Raleigh, N. C.; P. J. Wade, president of the Mercantile Trust Company of St. Louis; James H. Parnes, president of the First National Bank of Chicago; C. Stuart Patterson, president of the Western Savings Bank of Philadelphia; Frank D. Anderson, president of the Bank of Commerce, San Francisco, and L. P. McGraw, of Columbia, Tenn.

Committee meetings and a session of the executive council occupied this morning day of the convention. The meetings were held at the St. Charles Hotel. At 10 o'clock tomorrow morning.

WAS TROUBLED WITH WEAKNESS AND PALPITATION OF THE HEART

Through one cause or another a large majority of the people are troubled, more or less, with some form of heart trouble.

Little attention is paid to the slight weakness of the heart, but when it starts to beat irregularly or intermittently, palpitate and throb, skip beats fast for a time, then to slow to seem almost to stop, then it causes great anxiety and alarm.

To all such sufferers Milburn's Heart and Nerve Pills can and will give prompt and permanent relief. They do this by their restorative influence on every organ and tissue of the body.

Mrs. John J. Downey, New Glasgow, N.S., writes:—"Just a few lines to let you know what your Milburn's Heart and Nerve Pills have done for me. I was troubled with weakness and palpitation of the heart, would have severe chinking spells, and could scarcely lie down at all. I tried many remedies, but got none to answer my case like your pills. I can recommend them highly to all having heart or nerve troubles."

Price 50 cents per box, or 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

ing the first of the general sessions will be called to order in the afternoon by President P. O. Watts, of Nashville. The general sessions will be concluded Friday. The trust company and clearing house sections will hold their annual meetings Wednesday and the section devoted to savings banks will meet on Thursday.

Interpreting the business sessions of the convention there will be a number of features of elaborate entertainment arranged in honor of the visitors by the bankers and business men of New Orleans. A banquet at the St. Charles Hotel, a fete champagne at City Park, a polo game at Audubon Park, excursions to the river plantations and reception and ball at the French Opera House are among the entertainments that have been arranged for the visiting bankers and their ladies.

The members of the American Bankers' Association, business previously the entire financial fraternity of the United States. It was formed at Saratoga, N. Y., in 1875 at a conference at which thirty-two States were represented. Its growth has been steady and extremely rapid, the total membership today being upwards of 16,000 national, State and savings banks and trust companies and private banking houses.

The present officers of the association are: President, P. O. Watts, Nashville, Tenn.; first vice-president, William Livingstone, Detroit, Mich.; chairman of the executive council, Charles H. Hitting, St. Louis; general secretary, Fred E. Farnsworth, New York City; treasurer, Arthur Heynolds, Des Moines, Ia.

CARRIED REVOLVER.

John Janowski was fined \$20 and costs or 30 days in the M. P. courts by Magistrate Cowan this morning, for carrying a revolver. Janowski in his defence stated that he carried the gun to shoot bears with in British Columbia. He was also fined \$1 and costs for being drunk yesterday.

BRICKLAYER FALLS.

John Cichello, a bricklayer, was taken to the general hospital yesterday suffering from serious internal injuries as the result of a fall from the first story of a new block being erected at the corner of Fourth street and Alberta avenue, by J. P. Bryk and Larsen. He is being attended by Dr. Nichols.

A rival of "The Two Orphans" is soon to be made by Spencer Cone, a brother-in-law of Kate Wheaton, who made the play famous in this country years ago.

A DRY GOODS RETIRING SALE

\$50,000 Worth of Women's Splendid Apparel and Dry Goods

Suitable for the Winter and Summer Season to be sacrificed, as we are discontinuing this feature of our business.

THIS IS A VITAL OPPORTUNITY FOR YOU

One of the most sensational and surprising sales of this year is about to be consummated in the City of Edmonton. We have found it absolutely necessary—in order to do justice to our other two departments—to clear out every piece of our Dry Goods Department at prices, not only as low as any other store has offered to you in days gone by, but infinitely lower. In some cases well below the cost of the manufacturer.

This step was decided upon by the firm after very careful consideration and much thought, and the only result is that we have strict instructions to effect an entire clean up within a short time in order to allow the other departments of our business to make their necessary arrangements.

So the opportunity is yours—one of a lifetime—one that cannot be repeated in Edmonton for many years to come, if ever; and last, but not least, one that offers you Seasonable Goods of Superior Quality at such Low Prices that the very mention of a price would almost lead you to believe that the quality of the garments was not what we claim it to be.

Therefore, ladies, do not hesitate a moment, because we firmly believe and anticipate an extraordinary rush upon our resources in the morning. Numerous people have already been in to see the class of goods we are selling out and have been astonished, and judging by their remarks we naturally presume they will be on hand at an early hour. WILL YOU?

We only ask you to remember that the Sale opens at 8.30 o'clock tomorrow, when every bit of our Dry Goods Department will be on sale and open for your selection. There are some dandy buys, every thing is in excellent order and every purchase will be a bargain.

In conclusion, we would beg to state that all purchases in and during this sale must be for CASH ONLY; no credit accounts will be allowed at these prices, and when you see the phenomenal offers we are making you will very quickly understand why we make this stand.

Read over this announcement very carefully and make up your mind what you really want. Our windows illustrate some of the many bargains we are making.

Winter Coats and Costumes

240 Infants', Misses', Girls' and Women's Fall and Winter Coats of all descriptions at retiring sales prices. BOOST FOR EDMONTON AMATEUR ATHLETIC ASSOCIATION

ITALIAN WRESTLER THE LATEST HOPE

Will Go After All the Big Men Until He Is Entitled to Meet Frank Gotch for the World's Title

(By Monty.)
New York, Nov. 20.—It has been bruited about that we are in the midst of another foreign invasion of our wrestling field. Giovanni Raicovich—that is the two-fighting handle that preceded the arrival of his huge bulk upon American shores. "Champion Gracioso-Roman wrestler of Europe" is the title flaunted in the face of our grapplers.

Wonder what is going to be foisted upon the long-suffering American public this time. Mankout, Husseno, Zhyzsko, Hockenmidt—all of them have proven first class comedians. Each caused a furor of excitement upon his arrival. Each exploded when it came to a showdown.

Our esteemed contemporary, Harry Pollock, has the big Italian under his vine. We well remember brother Harry's gallivanting in the boxing game. So we are not at all surprised by the announcement that "Raicovich has been chasing Zhyzsko and Hocken-

mits and lots of good wrestling fans in the country who lament the paucity of genuine top-notch contests. Like other sorts of American fans, they do not enjoy simply watching "a wrestling match." They want to see "a good wrestling match." So let us hope that the big game and huge muscles of Raicovich, from Pina, mean the revival of the good old days when wrestling laid its place amongst our most popular sports.

Frank Gotch seems to be satisfied with things at home, judging from the way in which talk of his proposed world's tour has died out. The big fellow, one of the equarest and most popular champions America ever owned, is making hay while the sun shines, grabbing the kate that lies in wait for him in this country. Maybe he will so shoot with the foreign thing later. Gotch is one champion whom we can depend on not to do a "Billy Packer" around. A hand by Gotch through Europe at this time would kill not a

forming a players' protective association and he intends to affiliate it with the American Federation of Labor. Raicovich is to be taken back into the big leagues from the American association; Pan Johnson overstock in three American league clubs and two National league clubs.

Pretty good start for the instigators. However, there are a few hundred things to provide food for the fans. Fred Clarke will hereafter manage the Pirates from the bench and will give Vincent Campbell, the best young St. Louisan, his job in the outfield. Jimmy Mahler is now a Boston American; Clark Griffith will manage the Senators; Harry Davis will lead Cleveland; Jimmy Callahan will pilot the White Sox. Good material for "bugging bees" in that crop of changes.

One of the most closely watched men in baseball next year will be Harry Davis, erstwhile first baseman of Athletics, who will take hold of the Cleveland team where Stovall left off. Davis will have fair material to work with, but he is confronted with a "hoedown" of no duration. Jimmy Mo-

CANDID COMMENTS

(By Grad.)

This will be the first time in many years that two Toronto teams will meet on the road. The Argos deserve their win, and they have been a long time on the road. With practically no support, they were able to win Saturday in the final, and if they get nothing else, they will at least get a fine story. Something which the Argos need quite as badly as the championship.

It will soon be time for the Canadian athletes to start shaking about the Olympic games. Canada didn't do so well as they might have done at the last ones, and with a lot of the current stars out of the athletic world there appears to be danger of making an even worse showing in 1912.

Having annexed Fred Taylor, the hockey fans of Montreal will settle back in their chairs and be much more comfortable this year. The old guard of the Wanderer team appear to have weaned over, and the role at which they have been going and promising to go, is throwing cold chills into the Wanderer supporters. With the "Olympic" on the defence, Wanderers should make the other teams justify.

An egregious scribe back east advises the Y.M.C.A. boys to do any further, to pass some sort of a rule prohibiting the Western league from challenging for the Stanley Cup and goes on to say that the west has the Minto Cup and the Allan Cup and a few other minor trophies and that it should be enough. It is good to find that some of these eastern people who think a foot west of Winnipeg is "woofy" are waking up and realizing that we are on the map.

Hockey will make some stir around Vancouver this season. They will play hockey there and now of the lawn variety. They have the money and the enthusiasm and all that is necessary is the players and the ice, which are secondary considerations when they have the cash.

Jimmy Potts has consented to come to Edmonton and meet Ed Taro in what will probably be one of the best bouts seen in these parts. Both men have established reputations. Bob McInnis is handling the match and is making arrangements to stage it either at the Empire or Lyceum theatres at an early date. Meanwhile Taro is training quietly at Strattona and getting into shape. He has several good work-outs.

Billy Lauder is waiting word from Barney Mullen as to the date of his match with Mickey Ryan. Billy has engaged the Separate school hall, but the date has not yet been finally decided. Mickey is training manfully over the week and had some good workouts. He is certainly full of confidence and there is no doubt about his chances.

In the Olympic league last night, last year's champion, the Capitals explained by President Scrase put up some excellent bowling that will carry them far this season. Owing to Bill Matthews' absence for the first two games the Athletics dropped the low score in each game, but the Capitals' four men scored more in the first game than the Athletics give men did in the last game.

PUBLIC SCHOOL BOYS START SHOOTING

The Edmonton public schools opened their shooting series yesterday at the McKay school. Rupert May earned off premier honors with a score of 31 out of a possible 50. Jack Perin was second with 30. The next most will be tomorrow (Wednesday) afternoon at the High school.

Glad to Be Out of Pro. Hockey

Renfrew Won't Lament Loss of Their Franchise—Will Again Play Amateur Hockey

Renfrew, Nov. 20.—The news that there will be no professional hockey team in Renfrew this year comes not as a surprise to townsmen, but rather as a relief. In the words of a local supporter, himself an amateur player, "professional hockey never paid in Renfrew—can't be made to pay, it destroyed the fivers," which became non-professionals, and shut the door against their being admitted to any Valley league, and, above all, brought no genuine commercial prospect to the town. It is admitted to come very near the mark. Hope is expressed that under the new conditions a strictly amateur Valley League embracing Capetown Place to Pembroke will be formed, and that the good old days will return, when the "home brews" of the Valley towns will vie with its other for the championship.

Y.M.C.A. Hockey Club Annual Meeting 22nd

IT IS EXPECTED THAT A FEW SURPRISES WILL BE SPRUNG IN SHAPE OF DARK HORSES.

The Y.M.C.A. hockey club will hold its annual meeting on Wednesday evening. The Y has been slow in getting started, but it is rumored that when they do get started, they are going to make a big hurry in the hockey world. It is understood that they have a number of dark horses—men who have played senior O.H.A. in Ontario, and who will be stars in the Alberta league. The names of these men are being suppressed, but the club is organized and the team formed, but if reports speak truth, and the dark horse throws out by Physical Director Valentine are to carry any weight, the fans can look for a few surprises as soon as the team get up.

Some Bowling This Afternoon

Newspapermen's League Will Open This P. M.—Bulletin and Capital Meet on the Alleys—Friendship Ceases.

The Newspapermen's bowling league opens this afternoon at the Olympia alleys when the Capital outfit will meet the Bulletin bunch. This is the occasion when all friendship ceases and "Dad" Hawkins spent all last night in stuffing into his aggression the principles of gaining a victory. It sounded good in theory and we must devoutly hope it will come off in practice. The teams will line-up something like this: Bulletin—Pallister, Hunt, Garrison, Powers and Bill. Capital—J. J. Roche, H. McLeary, T. Ross, "Dad" Hawkins, and George Coulthard. Spares: C. E. Grawley, George Howling and W. Jones. Here's to South.

Capitals Take Three Straight

President Scrase's Champions Put It All Over the Athletics

In the Olympic bowling league last night the Capitals—last year's champions—gave a first class exhibition of bowling and won three straight games from Danny Knott's Athletics. The detailed score is as follows:

Capitals

McCollum . . . 183 170 180 524
Collins . . . 170 157 158 485
Griffith . . . 180 169 144 509
Scrase . . . 181 165 181 527

Watson . . . 187 157 123 463
Knott . . . 150 180 165 514

Totals . . . 658 565 722 2035

TO REPLACE OLD STANLEY CUP

It is rumored that Lord Stanley, the donor of the famous Stanley Cup emblem of the hockey championship of Canada, will replace the historic bowl with a new trophy valued at one thousand dollars. There was talk at the meeting of the N. H. A. last Saturday of circulating the Stanley Cup by some of the newcomers in the organization, but such a move would be resented by the people of Canada. There is a sentiment as well as history attached to the Stanley Cup and it is a trophy that should be perpetuated.

THREE TEAMS ON COAST

It is planned to have three teams in the professional league on the coast Vancouver and Victoria each has a rink and team, and the third will play its home games in Vancouver, but will be styled New Westminster.

Gotch Will Not Appear Back East

Toronto Audiences Once Hissed Him and Frank Duff Not Like That Stuff

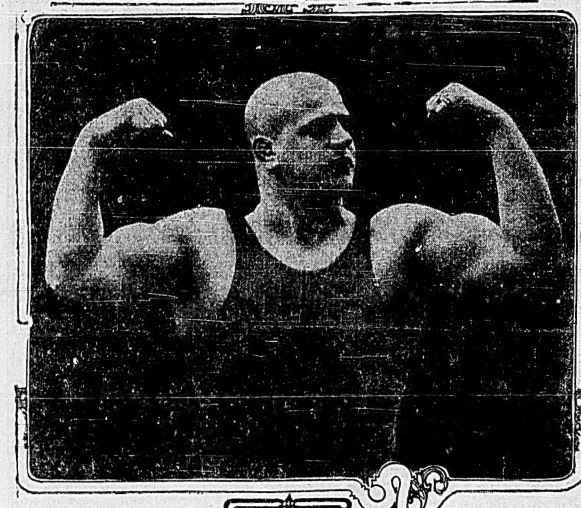

Toronto, Nov. 20.—Frank Gotch has finally declined to wrestle in Toronto this week. The champion's manager had closed with the National Sporting Club to bring Gotch here for the show at the Ryerson rink on November 22. Word was received that the local farmer refused to come to Canada because he was hosed by a Toronto audience on his last appearance here. An effort will be made to have Gotch, the giant Turk take the place.

Maritime Team Elect Officers

JOHN D. McDONALD WILL BE THE MANAGER—C. R. MITCHELL IS PRESIDENT.

The Maritime hockey club held a meeting in the Beals and Clark building, Rice street, last night, and elected officers to the year. The matter of forming ice was taken up, and the formation of the team discussed. John D. McDonald was elected manager of the team.

The officers are as follows:
Patron—Lieut.-Gov. Dulyck.
Hon. Pres.—C. R. Mitchell.
President—J. D. McDonald.
1st Vice-Pres.—C. B. Beale.
2nd Vice-Pres.—James Thibault.
3rd Vice-Pres.—W. J. Yes.
Financial Secretary—J. Burt Moore.
Recording Secretary—B. Williams.
Treasurer—T. McMillan.
Team manager—J. D. McDonald.
Representative to the Provincial League meeting—Dr. W. A. Farquhar.
Man. Committee—S. W. Foster, J. Thibault, Bruce Graham, Constitution and By-law Com.—J. Thibault, E. N. Williams and L. A. Wright.

GIAMONNE RAICOVICH—Italian wrestler, who is on the trail of Gotch, Hockenmidt and Zhyzsko. The big foreigner claims the Gracioso-Roman championship of Europe and says he has learned enough of the catch-as-catch-can game to lose any grapplers in this country at the present time. Raicovich is a mountain of muscle and brawn, and apparently the only question in regard to him is whether he has the speed and the science to cope with the others. Notice how his hair is shaved all around except among forehead wrinkles.

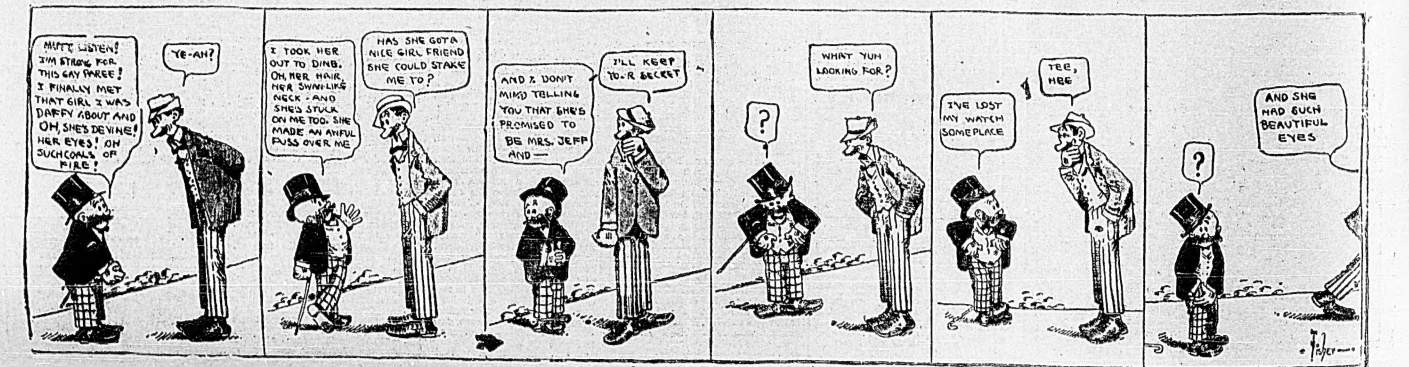

schmidt for the past three years. Funny how nobody happened over to have heard of Raicovich. The advance announcement continues—"This fellow has won all the big tournaments held during the past three years including those in Rome, Paris, London, City of Mexico, and Turin." Once more—funny how nobody has ever heard of him.

—that let us hope that Raicovich will not be a "cheese" that he will be able to put a real exhibition of wrestling in event that he ever hooks up with Gotch. It is undeniable that there are little to the prestige of Uncle Sam in the universal sporting world, as it is a dead sure thing that the Humbolt farmer would lose over with ease the mounted wounds of the confident.

The winter baseball league has opened its season with fan-fare and bon-bai. Here are some of the early catches: Tom Lynch is to be ousted from the presidency of the National League; each American league club contributes \$1,000 to T. Cobb's salary, in addition to what he gets from Detroit; John Montgomery Ward is secretly

ADDITIONAL SPORT

REVEREND WILL OW WILKINSON ARE GOOD

SPORT IN ENGLAND COULD BE SPARED ITS CLERICAL CRICKET PLAYERS

You could probably count the first class clerical cricketers on the fingers of two hands; but although their number is small, they are a host in their sphere, and cricket in England could ill spare some of the reverend wicketers of the willow.

The Rev. P. H. Gillingham, for instance, who probably ranks first among clerical players, has done many things to decide on the cricket field since the days when he first learned to hold a straight bat at Dulwich college, the cradle of J. and H. N. Douglas and N. A. Knox. It was while doing curate's work at Leyton that Mr. Gillingham (twice, by the way, really from the "county of broad acres") was invited to play for Essex, and by his hard and bluff hitting and his clever fielding quickly made a name as great as his personal popularity.

When Mr. Gillingham "gets his eye in" there are few cricketers can fog the ball as he can; his hitting is tremendous and the way in which he has been the despair of the best bowlers of Yorkshire, Surrey and many another county, as it has been the delight of tens of thousands of spectators. As a brilliant and rapid scorer he has few superiors in England.

Gillingham's Record.

And what Mr. Gillingham has done for Essex, the Rev. W. V. Jefferies, vicar of Chilworth, near Hove, has done for Hampshire. Mr. Jefferies learned his cricket at Hulsebury and carried his school prowess to Oxford, where he quickly took a forward position among the gentlemen of his day. To Hampshire he has been for some years a tower of strength, which it is hardly needed; and it is a pity that his clerical duties do not allow him to make more appearances on the field.

The Rev. Harvey Stoughton, although his success has perhaps not equalled his promise, has put in some good work for Nottinghamshire during recent years. As a Cambridge undergraduate he performed prodigies with the bat in the field, and a great force was predicated for him; but since he took the chaplaincy of the Nottingham, nine years ago, his opportunities for playing have been restricted, and he has also had more than his share of bad luck.

The Rev. A. M. Bashford, who has made several appearances for Middlesex while a curate at Edmonton, is another first class cricketer to whom the fates have been too kind; the Rev. P. Peck, who has played some very fine innings for Berkshire, and the Rev. R. P. Morrison has rendered similar service to Durham. Nor must we forget the Rev. G. B. Raikes, who, a few seasons ago had the splendid average of 38 runs and caught 25 wickets at a cost of 14.08 apiece, and who has done such yeoman service for Hampshire and Norfolk.

Among clerical cricketers of a past generation are Frederick Archdale Palmer, who, at 21, became in Somerset eleven; and the Rev. William Butler, canon of Peterborough, who played for both Oxford and Sussex and can still give points to most of the "young ones" at the game.

ITALIAN WRESTLER

THE LATEST HOPE

(Continued from Page Eight.)

After a few weeks of the 1911 season he became disgusted and threw up the job. Stivali succeeded him in a temporary capacity. Stivali is the hard luck man of the season. After running the Naps up to almost within striking distance of a pennant, he was justly informed of the fact that Davis has been contracted for a full season next year. Stivali had worked his way into great popularity among the Cleveland baseball fraternity. Now he has to step down and out merely because Davis had been promised the job before Stivali had a chance to show his mettle. It will be interesting to see how the Cleveland fans receive Davis—who is superseding a popular idol.

One cannot help admiring the sentiments of Mrs. Helen Hathaway Brown, the first woman baseball manager in history, who says in regard to the career of St. Louis fans: "We want to see the Cardinals win a pennant first; a new grandstand can come later." That is the right spirit. Mrs. Brown proves herself a true sportsman. Such policies in back of the club should prove a great help to Washington in running out a winning team.

Still a little early to think about the All-American football team, but it's a good bet Walter Camp picks his eleven from the following:

Ends: Willis of Princeton, Smith of Harvard, Wells of Michigan, Day of Northwestern and Fulton of Harvard; tackles—Seely of Pacific, Hale of Princeton and Dean of West Point; guards—Fisher of Harvard, Huff of Harvard, Princeton and Francis of Yale; centers—Buehlerthal of Princeton and Masters of Yale; fullbacks—Sprinkle of Brown, McMillan of Michigan, Brown of Yale and Moll of Wisconsin; halfbacks—Wendell of Harvard and Princeton; quarterback—Princeton; Guard of Princeton, Tatum of the Navy and Camp, Jr., of Yale; fullback—Seely of Yale; guard—Mull of Princeton and Huntington of Harvard.

Baseball has become a very popular game in Venezuela recently. This is due to the introduction in the canal zone.

It is reported that Piche Alexander of the Philadelphia Nationals is now negotiating a contract for 1912 with that team.

Regina Act Like Bunch of Sports

Admit They Got Square Deal in W. C. R. U. Decision.

Regina, Nov. 20.—Many local fans are under the impression that Regina was handed a raw deal by the W.C.R.U. in regard to settling the western championship this season, and consequently hold a grudge against the Winnipeg Moving Club. This is a very erroneous impression, as Reg's consented to default the game with the warmers providing the latter could arrange a game with Calgary. The Regina officers were sports enough to concede a point to the Winnipeggers and thereby avoid hammering the arrangements, which were being planned for today's game. The locals, at a meeting held a week ago, decided to withdraw and thereby put themselves out of the game for the season. Calgary wanted to meet either Regina or Winnipeg, and as the latter decided to stay to the finish, the locals agreed to give them last Saturday's game by default, though in reality the blue and white were far from being guilty of defaulting. Saturday's game was the one originally scheduled for Regina, but the two teams interested agreed to play it in Calgary, where favorable weather was more certain. The W.C.R.U. has been by no means "bowed up" and it is to be congratulated on bringing about today's game. Next year the seasons will close earlier in each of the three western unions, and the W.C.R.U. games will be played off before the snow flies. This year is only a starter and the officers have something to work on in arranging play-offs for ensuing years.

And what Mr. Gillingham has done for Essex, the Rev. W. V. Jefferies, vicar of Chilworth, near Hove, has done for Hampshire. Mr. Jefferies learned his cricket at Hulsebury and carried his school prowess to Oxford, where he quickly took a forward position among the gentlemen of his day. To Hampshire he has been for some years a tower of strength, which it is hardly needed; and it is a pity that his clerical duties do not allow him to make more appearances on the field.

Gillingham's Record.

And what Mr. Gillingham has done for Essex, the Rev. W. V. Jefferies, vicar of Chilworth, near Hove, has done for Hampshire. Mr. Jefferies learned his cricket at Hulsebury and carried his school prowess to Oxford, where he quickly took a forward position among the gentlemen of his day. To Hampshire he has been for some years a tower of strength, which it is hardly needed; and it is a pity that his clerical duties do not allow him to make more appearances on the field.

The Rev. Harvey Stoughton, although his success has perhaps not equalled his promise, has put in some good work for Nottinghamshire during recent years. As a Cambridge undergraduate he performed prodigies with the bat in the field, and a great force was predicated for him; but since he took the chaplaincy of the Nottingham, nine years ago, his opportunities for playing have been restricted, and he has also had more than his share of bad luck.

The Rev. A. M. Bashford, who has made several appearances for Middlesex while a curate at Edmonton, is another first class cricketer to whom the fates have been too kind; the Rev. P. Peck, who has played some very fine innings for Berkshire, and the Rev. R. P. Morrison has rendered similar service to Durham. Nor must we forget the Rev. G. B. Raikes, who, a few seasons ago had the splendid average of 38 runs and caught 25 wickets at a cost of 14.08 apiece, and who has done such yeoman service for Hampshire and Norfolk.

Among clerical cricketers of a past generation are Frederick Archdale Palmer, who, at 21, became in Somerset eleven; and the Rev. William Butler, canon of Peterborough, who played for both Oxford and Sussex and can still give points to most of the "young ones" at the game.

ITALIAN WRESTLER

THE LATEST HOPE

(Continued from Page Eight.)

After a few weeks of the 1911 season he became disgusted and threw up the job. Stivali succeeded him in a temporary capacity. Stivali is the hard luck man of the season. After running the Naps up to almost within striking distance of a pennant, he was justly informed of the fact that Davis has been contracted for a full season next year. Stivali had worked his way into great popularity among the Cleveland baseball fraternity. Now he has to step down and out merely because Davis had been promised the job before Stivali had a chance to show his mettle. It will be interesting to see how the Cleveland fans receive Davis—who is superseding a popular idol.

One cannot help admiring the sentiments of Mrs. Helen Hathaway Brown, the first woman baseball manager in history, who says in regard to the career of St. Louis fans: "We want to see the Cardinals win a pennant first; a new grandstand can come later." That is the right spirit. Mrs. Brown proves herself a true sportsman. Such policies in back of the club should prove a great help to Washington in running out a winning team.

Still a little early to think about the All-American football team, but it's a good bet Walter Camp picks his eleven from the following:

Ends: Willis of Princeton, Smith of Harvard, Wells of Michigan, Day of Northwestern and Fulton of Harvard; tackles—Seely of Pacific, Hale of Princeton and Dean of West Point; guards—Fisher of Harvard, Huff of Harvard, Princeton and Francis of Yale; centers—Buehlerthal of Princeton and Masters of Yale; fullbacks—Sprinkle of Brown, McMillan of Michigan, Brown of Yale and Moll of Wisconsin; halfbacks—Wendell of Harvard and Princeton; quarterback—Princeton; Guard of Princeton, Tatum of the Navy and Camp, Jr., of Yale; fullback—Seely of Yale; guard—Mull of Princeton and Huntington of Harvard.

Baseball has become a very popular game in Venezuela recently. This is due to the introduction in the canal zone.

It is reported that Piche Alexander of the Philadelphia Nationals is now negotiating a contract for 1912 with that team.

Unique Jobs For Baseball Men in Winter

"Umps" and Players Take Palm for Varieties of work They Enter

Chicago, Nov. 20.—When it comes to selecting unique jobs, give the blue ribbon, the palm, or anything else denoting the honors, to the ball players or to the men associated with that pastime.

Take the umpires, for instance. What would you figure as the most unpleasant job in the world in the summer time? Umpiring, of course. Then what would you figure to be about the most unpleasant job in winter? Can you conceive of anything less to be done more than the job of a door walker? Yet that is the job that many of the umpires seek.

Floor Walking Their Fort.

There's Steve Gaskett, for instance. True was when he umpired in the National League. Last summer he worked in the "Three Eye." Then there was Van Sick, one time an umpire in the Southern, but more recently in the Illinois-Wisconsin League. They listen to the kicks of the fans and umpires. And when winter comes they like right to the kicks of the fans and umpires.

Apparently they enjoy the kicks. If they didn't they would bury themselves in the winter. Instead they seek jobs as floor walkers, where they can hear the kicks all winter long.

"We're used to them," said Gaskett, meaning the kicks. "What the patrons say in the department stores in the winter is almost never compared to what the ball players tell us in the summer."

"We have an idea that any man who has umpired for years is well qualified to hold down a job as floor walker."

Apparently the managers of the big department stores entertain the same idea. At any rate, a good umpire always has a chance at the job.

Penny in the Clefters.

But the umpires are not the only fellows who go after the winter unique jobs. There is Charley O'Leary, for instance. In the summer he plays on the Chicago White Sox. This winter he will attempt to gather many pennies. O'Leary, who lives in Chicago, has just undertaken the contract of giving everybody in this city an opportunity of discovering his or her weight in pennies. That is, O'Leary has been made the Chicago representative of a patent scale. It will be O'Leary's job to get the weighing contrivance in all public places, and he will be kept busy after he installs the scales in hustling from one to the other gathering up the pennies.

Rebush on Auto Agent.

Edward Rebush has changed his habits, and also has changed his business. In winter he is a real football fan. In the summer he is a real automobile agent. This year he is trying to sell automobiles. Rebush, who is a well known football player in the business, is a well known football player in the business. When Rebush was going to the best of his summer he met with a serious accident which put his legs in a plaster cast. He was then unable to play football. He then turned to the automobile business. He is now a well known automobile agent. He is now a well known automobile agent.

Jack McCarthy, a former star on the East Side, and more recently the manager of the Danville club of the Three Eye League, is out as the agent of the wonder of the age. He is selling a patent contrivance which bats a ball in any point. Said contrivance makes it impossible for a door to slam.

Jack is posing as a benefactor to mankind, but one doesn't get that impression from his talk his patent and from him really the statistics of the number of persons driven to nervous prostration by slamming doors.

Solman Resigns and Querrie Gets N.L.U. Franchise

Unexpected Development at the Tecumseh Annual Meeting

STICK TO THE NATIONAL

Solman's Parting Advice—Peter Small Resigns Also—Webb Is President.

Toronto, Nov. 20.—Charlie Querrie, the "Little Indian Chief," is now the big Indian Chief of the Tecumseh franchise. The N.L.U. has been resigned from the club. Solman's resignation came as a surprise, but while he is out of an official position it does not necessarily follow that he resigned because he was sore on the Tecumsehs for joining the Red Sox. He has no more will withdraw his support. His resignation was urged by the Tecumsehs to stick to the N.L.U. and not to have anything to do with them. He refused to reconsider his resignation.

The franchise will be valuable chiefly as a souvenir, if the "Four Four" idea goes through. The meeting approved of the idea. The four four idea was to go to Montreal to attend the N.L.U. meeting tonight, pledged to stick to the four four idea. What was the N.L.U. did.

Peter Small, who has been president of the N.L.U. for the last three years, announced his retirement owing to business, and C. W. Webb, who has been vice-president for two years, was elected to the chief office, and Small given the position of honorary president.

A meeting of the executive will be held next Tuesday evening to make arrangements for their annual banquet and presentation of medals. The officers elected:

President—C. W. Webb. Vice-president—J. J. C. Cerswell. Second vice-president—J. J. C. Cerswell. Third vice-president—J. J. C. Cerswell. Secretary—Charles Querrie. Treasurer—Fred Hamby.

Executive—K. Forsyth, A. A. Marks, A. E. Burnett, and Dr. M. M. Crawford.

THE NOVEMBER ROD AND GUN

For the big game hunting month Rod and Gun in Canada, published by W. J. Taylor, Woodstock, Ont., still keeps the big game stories well to the front in the November issue. Hunters on their annual vacation bent, those in camp and those returning after fine expeditions of recent and former outings will welcome the volume of good stories contained in the latest issue. At the November issue the number with one of his British Columbia stories, which he makes so fascinating to all lovers of the outdoors. More is heard about the wolves and still more about the moose, a large head having been secured by Mr. Rankin. A variety from the big game stories is introduced by Mr. A. O. Have Women Caused Any

Experience Shows That They Follow in Channels with Their Husbands, and the Hopes and Fears of Advocates and Antagonists Are Unrealized

(By R. Cameron.)

Wellington, N. Y., Nov. 21.—The effect upon New Zealand politics of granting the franchise to women is a question which has been for some time a subject of debate outside of New Zealand without that it has not been a question of all since. It has sometimes been said that the women of New Zealand obtained the franchise without having had to work for it. This is not correct. For several years a considerable agitation had been carried on in favor of the reform by the Women's Christian Temperance Union and during the last year by some other organizations. Public meetings and petitions were the principal instruments of this agitation. Petitions containing the signatures of 10,000, 21,000 and 30,000 women and were presented to Parliament on three different occasions. The last and largest of these petitions represented about 21 per cent of the estimated female population of the country at the time.

These petitions had supporters among the leading men on both sides of politics, but were mainly the work of the women themselves. It was an enthusiastic and well-managed movement, but perfectly peaceful and orderly. It lacked the pugna and the tactical elements of the Temperance movement which had just then begun to assume its aggressively political phase. The agitation for women's suffrage accordingly failed to impress the public mind as strongly as a kindred crusade, but it was none the worse off for that. A movement which has a considerable number of enthusiastic participants, and excites no opposition, can hardly be said to have been calculated to make headway with the politicians of a democracy, even though the actual number of supporters of the whole people.

Nevertheless, it was only by a lucky accident that the women's cause triumphed so speedily. The passing of the question when an Electoral Bill was before the House of Representatives in 1893 had placed the politicians in a very embarrassing position, and it was beyond the advantage of run, as it were, with the hare and hound by the popular character and action in "another place." But that master

mount consideration, Character, as Mr. Joseph Chamberlain has said, is the first essential in public life. It was expected that woman would take the same view, but disappointment has followed.

The point was recently the subject of an interesting controversy between two representative women of New Zealand. Mrs. Leo Myers, of Auckland, took the view unfavorable to the claims of women.

"What great good, what moral reform, has women's franchise wrought in New Zealand? Is there a better class of man in the 'Islands of the mighty'? Is the political status higher? Is the tone of our national life elevated to a nobler standard? I leave you to answer. But to the inquiring, open mind the result of women's suffrage has made no appreciable difference, but has merely increased the number of impressionable, incompetent voters."

The reply of Mrs. Cole of Christchurch, met this statement by a direct denial, and countered the attack by raising the class issue.

"We challenge the lady to prove her contention also that 'the Seats of the Mighty' are not better filled than heretofore. Though here again standpoint is everything. If one believes that wealth and social position should be the adjuncts of the men who should represent us, rather than moral worth and a love of humanity, then parties and our law makers are not equal to those of the past in that respect. We nobly supposed that woman would make many direct contributions to the solution of the problems of statesmanship by men."

Even by the measure which qualified her as an elector she continued to be expressly excluded from a seat in either House of Parliament, and no serious suggestion has ever been made that the bar should be removed. Probably all but a very small fraction of the most ardent supporters of women's franchise are well satisfied to see her leaving all the normal work of politics, even outside of Parliament, to the men. But even in the discharge of this duty which has been entrusted to her, woman has contributed little if anything to the raising of a standard which was not previously very high. In fact, the choice of good legislators is still the chief duty of an elector and the supreme need of a democracy. It was natural to assume that without touching the details of statesmanship, the woman would at least be helped by her moral instincts and her intuitive appreciation of character to choose and elect politicians by making the character of a candidate the para-

MAGRATH TO PROVE LIVELY CANDIDATE

LEASES MOST CENTRAL LOCATION IN CITY FOR COMMITTEE ROOM.

That W. J. Magrath is going to make a very lively candidate for the mayoralty of Greater Edmonton is becoming very evident this morning when he came known that he had, through agents in the city, leased the present Canadian Pacific ticket and telegraph office for a committee room and headquarters during the campaign.

The premises leased is the most centrally located in the city. It has a front foot, by about a 50-foot lot, on Jasper avenue, and will make a more convenient committee room than ever used in either provincial or federal elections by other party.

The C. P. R. has taken out of the premises into the building next door, the company's intention being to commence building on the 30 feet lot which they now occupy as early as possible in the spring.

In preparation for the campaign, Mr. Magrath is making an extensive tour of the eastern cities studying municipal questions and municipal systems. He intends, if at all possible, to visit the States, Terre Haute and other cities in the central western states in order to gather at first hand, information about the commission form of government and he will so into the campaign armed with all the latest knowledge on the charter question, which promises to be the main issue before the voters of the city in the municipal election.

Caught a Bad Cold

DEVELOPED BRONCHITIS SHE COULD HARDLY SPEAK.

Bronchitis begins with a tightness across the chest, difficulty of breathing, hoarseness, and there is a dry, harsh, croupy cough.

After a few days mucous begins to be raised. This is at first white, but later of a greenish or yellow color and is occasionally streaked with blood.

Cure the first symptoms of bronchitis by the use of Dr. Wood's Norway Pine Syrup and thus prevent it becoming chronic and perhaps turning to consumption.

Mrs. Edward Travers, Campbellton, N.B., writes:—"I thought it my duty to write and let you know what your wonderful medicine has done for me. I caught a very bad cold which developed into bronchitis. I was so choked up I could hardly breathe. I tried many medicines but they did me no good, and I had almost given up in despair. A friend advised me to try Dr. Wood's Norway Pine Syrup, so I got a bottle and felt much better, and by the time I had taken four I was completely cured, and I can assure you I cannot say too much in its praise, as it is all you claim for it, and more."

Dr. Wood's Norway Pine Syrup is put up in a yellow wrapper; three pints the trade mark price 25 cents. Manufactured only by The T. M. L. Co., Limited, Toronto, Ont.

ADDITION TO SAVOY.

George Brown, proprietor of the Savoy hotel on Kaminita avenue, is planning for the erection of a four-story addition to the hotel on the lot adjoining the site of the existing building. Eighty rooms will be added by the new structure and this will cause the Savoy hotel to be the largest hotel in the city. This summer a four-story addition was erected by Mr. Brown to the rear of the building, thus comprising the hotel. The new work planned will demand and outlay of from \$50,000 to \$60,000. In the new building the rooms and suites will be stylish modern and elegantly furnished.
